

Top Tips

SCREEN CAPTURE

Save screenshot as .png vs. jpeg. The jpeg file will scale images down.

5

1

The Cursor:

AVOID CAPTURING THE CURSOR

unless it's needed. Some apps will allow you to click "capture the cursor" on and off to avoid this. Check the preferences.

a

b

Use a Large Cursor only when recording

The **LARGER THE CURSOR**, the easier it is for the viewer to follow along.

4

Keep it Private and Professional

ONLY KEEP windows and tabs you need open when recording

zoom instructions

MAC: Command "+" and "-"

PC: Control "+" and "-"

3

2

Use Full Screen Mode

MOVE SLOWLY AND METHODICALLY when recording so the viewer can follow along.

600w

SIZE:

Make screenshots no larger than 600 pixels wide.

Set web-browser **ASPECT RATIO** to 16:9 whenever possible
